

The City of Ridgecrest Monthly Report

Autumn

October 2009

City Manager/Administration

Telephone 499-5004 - Fax 499-1500

CITY MANAGER OCTOBER MTGS.

- Oct 01 - Media Mtg,
- Oct 07 - Benz Mtg.
- Oct 07 - CITY COUNCIL
-
- Oct 08 - Tom Mulvihill, Water District
- Oct 08 - Aaron Rios, Wal-Mart
- Oct 15 - Media Mtg.
- Oct 20 - Benz Mtg.
- Oct 28 - P.E.A.R. Mtg

City Manager

City Manager Harvey Rose - First month back and acclimating to work life. The new office, computer configuration, and various city matters at hand are keeping me very busy. I have met with staff and Benz regarding the trash issue and have been briefed on the concerns by the Council and community. One-on-one department head meetings, media and Wal-

Mart meetings have been added to my calendar. I have enough to keep me occupied for awhile.

Administration

Eva Peterson – Welcome back Mr. Rose! It has been a busy month getting things ready for our new City Manager and making preparations for the Kern County Association of Cities (KCAC) dinner meeting that Ridgecrest is hosting in early December. Also, assisted Councilmember Holloway with federal travel arrangements for DOD Conference in Orlando, FL.

Ann Taylor - Continue working on the SCE partnership multi-year agreement. I have also been working will be helping on special projects in Human Resources. I am currently preparing the grant application for the Energy Efficiency Conservation Block Grant Program. This grant will provide the City with approximately \$147,000 for an energy efficient project for a municipal facility.

Lauren Elliott - In the month of October, 15 participants continued their work experiences within the community. The Y.E.S! staff has continued to progress more applicants through the approval process. The Y.E.S! Staff has completed the summer portion of the program and is currently working on the winter intake. During the month of October we held a mass orientation and completed a community project. The program had 28 participants successfully complete the program and another 16 to follow shortly. The program had another participant successfully complete the program and was employed by a local business. Please remember, the interest you show today in our youth of this community will ultimately shape our community and our country tomorrow. Show a positive interest and secure all of our futures

City Manager/Administration

Telephone 499-5004 - Fax 499-1500

Karen Guidangen - Not much new with Human Resources but here are a few reminders.....AFLAC will come in one more time on November 25th this will be your last chance to enroll in any new coverage or make changes to current. They will only be here from 2:30 – 4:30 so “please” make sure to contact me at x5035 to schedule your appointment. If you are enrolled in Un-reimbursed Medical “Flex-One” and do not come in to continue your current deductions they will expire and not continue into the new year.

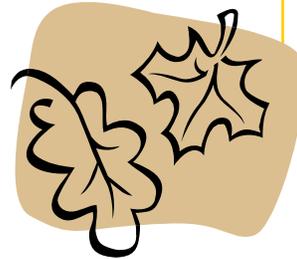

The Events Committee is diligently planning for our Annual Christmas Luncheon make sure to mark your calendar for December 17th there will be fun for all.

Risk Management - we had 26 open Worker’s Compensation claims, 6 new and 1 claim closed leaving 31 opened claims. There are no open liability claims and no property claims. Renewals for the Crime Bond has been received and will be working to get that submitted within the next month. As always, I appreciate your support and the opportunity to work with you “Our Employees”.

Parks, Recreation, & Cultural Affairs Department

Swine Flu Shots @ KMCC

SPECIAL POINTS OF INTEREST:

- Park Preschool - pg 2
- Youth Flag Football - pg 3
- Youth Soccer - pg 3
- Youth Basketball League - pg. 4
- Maturango Days held in Freedom Park—pg 4

On Wednesday November 4th the Kern County Health Department held the first Swine Flu Clinics at the Kerr McGee Center. Crowds formed early and lines were long inside and outside the building. The Kern County Health Department reported administering over 700 vaccinations that day!

Park Preschool Happenings.....

The Parks and Recreation Departments Park Pre-School took time out of their normal activities to put on a Halloween Parade for their parents through Kerr McGee and City Hall.

Fire Station Visit

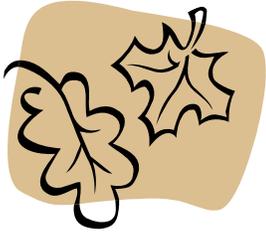

Flag Football Season Began November 2

The 4th year of Youth Flag Football began on November 2 with over 230 participants. The league is for youth ages 6-15, they practice one night per week with games every Friday night or Saturday morning. McDonalds of Ridgecrest has graciously agreed to provide the long sleeved shirts again this year. Their sponsorship was a big hit with everyone last year. Included in their sponsorship is a weekly coupon deal, "Buy a Big Mac or any item at equal or greater price and receive ONE Big Mac Free" for players, coaches, and officials who wear their Big Mac Flag Football League shirt into the restaurant.

Parks and Recreation Department Fall Soccer League ended on Oct. 31st with a tournament. Tournament winners were:

- Boys Div. 4 Silver medal: The Lasers
- Gold medal: The Fury
- Coed Div. 5 Silver medal: The Rockets
- Gold medal: The Fusion

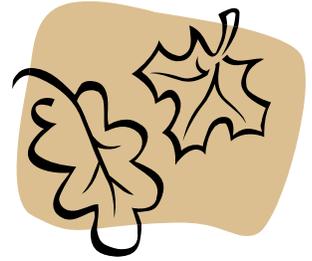

2010 Youth Basketball Sign-ups going on !!!

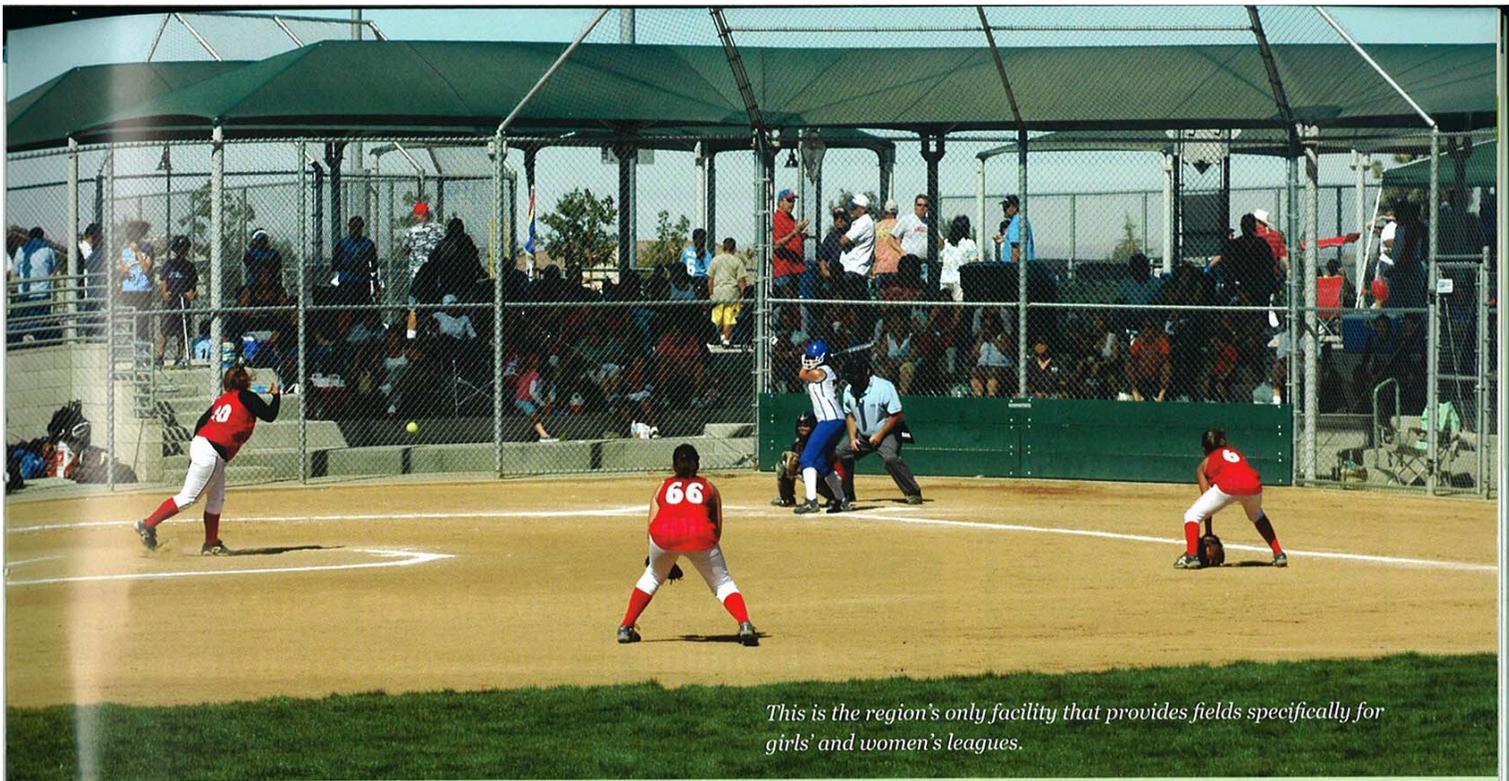

The Parks and Recreation Department's Youth Basketball League is taking sign ups through December 1st with the league starting January 4th 2010. The league is for all interested youth 5 - 13 years of age. Gary Charlon's local State Farm Office has graciously agreed to sponsor the league again this year...Thanks in advance to Gary Charlon for his ongoing support!!

Maturango Days in Freedom Park

This is the region's only facility that provides fields specifically for girls' and women's leagues.

Palmdale Community Builds New Recreation Facilities

Between 1990 and 2000, the City of Palmdale's population grew by more than 77 percent to 147,897. Although housing, schools and other amenities kept pace with this growth, the city lacked adequate recreation facilities, particularly for its young residents. Long waiting lists for sports activities and swim lessons frustrated kids and parents; teen programs could not be developed without a place to house them.

The city recognized the need to provide recreation facilities and encourage event tourism, but lacked funds. Palmdale's city council and staff examined the option of establishing an assessment district to finance the design, construction and operation of new recreation facilities. By using a local ballot measure to ask property owners to approve an annual assessment, the city could raise enough money to fund the needed items — in combination with grant funds and some city revenue.

In 2000, Palmdale contracted with a research and analysis firm that administered scientific surveys to evaluate property owners' recreational desires and determine how much they would be willing to pay toward new facilities. The findings confirmed there

was strong community interest in new facilities, and residents were willing to help fund them. People wanted recreation centers, pools, playfields, an amphitheater and a water park. So the city hired a consultant to help initiate an outreach program and develop a ballot measure.

Putting It Together

Parents, teens, seniors, business leaders, school representatives, church members, aquatics teams and sports leagues formed a grassroots group, the People Advocating Recreation and Kids' Safety (PARKS) Committee, in 2001 and spread the word that new recreation facilities would improve Palmdale's quality of life and help build a safer community.

Because Palmdale covers 100 square miles, it made sense to build facilities on both sides of the city. Staff prioritized amenities and scaled them back to reach an achievable budget of approximately \$42 million to acquire land and develop the initial phase. The city identified six funding sources that combined would provide the needed funding. An assessment of \$36 per parcel was presented

continued on page 24

The City of Palmdale won the League Partners Award for Excellence in City-Business Relations in the 2008 Helen Putnam Award for Excellence Award program. For more information about the program, visit www.cacities.org/helenputnam.

to voters as “\$3 per month for safe parks and recreation facilities second to none and available for all.”

A mail ballot requiring a simple majority was used to present the measure to property owners; it was mailed in June 2002

and passed with 56 percent approval. The assessment district was created.

To develop the facilities, the district acquired a total of 73 acres. An architectural firm generated visual displays and incorporated staff and community concepts into the plans. Staff from city

departments, including finance, planning, parks and recreation and public works, participated with residents in the project’s design and preparation phase. The project went to bid in January 2004.

“What makes this so special is that the project came from our city’s residents,” says Mayor James C. Ledford Jr. “It was their energy, their input in the design and scope of the project and their desire to push the assessment through that made the project such a success.”

J O B O P P O R T U N I T I E S

Deputy County Manager Douglas County, CO

Douglas County, with 286,600 residents, is midway between the state’s two largest cities, Denver and Colorado Springs, and offers an array of natural beauty in its mountains, foothills and plains. This new position will have oversight responsibilities for the internal service departments including Finance, HR, IT, CSU, Open Space, Risk Management and OD and will develop outcome-based measurements to ensure resources are being allocated appropriately. Bachelor’s required; Master’s preferred along with minimum six years’ public sector experience. Salary range \$116,000 - \$145,000 DOQ, excellent benefits.

Call Phil McKenney at (866) 912-1919 for more information or to request a detailed brochure. The brochure is also available on our web site at www.peckhamandmckenney.com.

Filing deadline is April 30, 2009.

Assistant City Manager, Barstow, CA

Located in the Inland Empire North region of San Bernardino County, the City of Barstow (population approximately 24,000) is a healthy, vibrant city that promotes a true spirit of community throughout the year. The City is currently seeking an Assistant City Manager (ACM) with exceptional managerial, leadership, communication and critical thinking skills. The ideal candidate will possess a big picture perspective and be forward thinking. It is important that the ACM actively participate in addressing issues of concern to the City, which at times may be outside her/his direct area of expertise. A primary responsibility of the ACM will be to manage a full-service Human Resources Department. Therefore, it is imperative that candidates possess a broad knowledge of the principles and practices of a diversified Human Resources Department within a municipal government environment. The selected candidate will have the opportunity to be mentored by the current City Manager, Richard Rowe. The ideal candidate will be collaborative, growth minded, a consensus builder and confident in his/her ability to make decisions, which will coincide with the City and its goals. Ten years of increasingly responsible administrative experience in a municipal government including five years of municipal human resources management and supervisory experience is required. A Bachelor’s degree in public administration, business administration or a related field is also required. A Masters degree is highly desirable. The salary range is \$110,208-\$140,656, plus an attractive benefits package to be negotiated with the selected candidate. If you are interested in this outstanding opportunity, please apply at www.bobmurrayassoc.com. A detailed brochure is available. Please call **Regan Williams** with questions. (916) 784-9080. **Filing Deadline: April 24, 2009.**

Making It Real

The City of Palmdale simultaneously developed several major recreation facilities for residents of all ages. The east and west side locations each have:

- A 16,800-square-foot recreation center containing a regulation basketball court with two cross-courts, multi-purpose hall and dance studio, and game room; and
- Separate swimming facilities with competition pools.

In addition, on Palmdale’s east side, the municipally operated DryTown Water Park offers several themed attractions. A free-flowing lazy river, a tower with three water slides and children’s water playground are complemented by a snack bar, gift store, covered picnic areas and an area for group functions.

On the city’s west side, the Palmdale Amphitheater provides the community’s only venue for community concerts, fundraisers and festivals. Perhaps most exciting, the Best of the West Softball Complex, with seven world-class lighted softball fields, covered dugouts and stadium seating, is the only facility in the region that provides fields specifically for girls’ and women’s leagues.

Economic Benefits Despite Recession

Palmdale’s Department of Parks and Recreation increased its part-time work force by 40 percent to staff the new facilities, providing employment for youth. Lifeguard staff now provides certification opportunities to job applicants. With the

new pools, aquatic program revenue increased by 40 percent and participant use tripled despite the economic downturn of 2008. DryTown Water Park reaches its attendance capacity each summer, and thousands attend free summer concerts at the Palmdale Amphitheater. Attendance at the recreation center is consistently

high year round, and the softball complex hosts tournaments for professional teams. Event visitors benefit the local economy, spending on hotels, restaurants, shopping and entertainment.

Palmdale has shown how a solid plan, grassroots support and a commitment to excellence can produce positive results

for a community — providing quality, family-oriented programs and events, increasing opportunities for youth and enhancing the local economy.

| Total Incidents | 3147 | 3471 | 3515 | 3604 | 3573 | 3179 | 20489 |

INVESTIGATIONS

October was “slow” due to training, time-off, and court. Most general detectives had several “Admin” days where they performed clerical duties such as inputting subpoenas, processing citations, and filing court cases with the DA.

Detective Hanley had a two week vacation period and continued working several child molestation cases initiated in September.

Detective Atkins is working an in-depth embezzlement case involving the local Coldwell Banker officer. A former accountant allegedly diverted and took over \$60,000 in business funds.

Detective Castaneda solved a residential burglary where checks were stolen and then cashed at a local bank. Three suspects were identified and arrested on charges of burglary, forgery, and conspiracy.

Clerk Agostinacci, Property Officer Rutherford, and I attended various components of the RIMS Conference in S. Lake Tahoe. Several improvements were submitted regarding the RIMS Property Module and will be incorporated in the RIMS 17 update.

On 10-09-09, CSU conducted a parole search on Allen Delapena at his residence 1008 W. Langley Ave. There Officers located approximately .2 grams of methamphetamine inside of a pipe and 14 morphine pills. A warrant for Delapena has been sought through the DA’s office, see RPD case# 09-3449.

On 10-10-09, CSU along with the Health Department conducted an investigation into the sales of tobacco to minors. Using a minor decoy we attempted to buy cigarettes from all stores that sell tobacco. Three locations sold cigarettes to our decoy and three arrests were made, see RPD case# 09-3463/3465/3466.

On 10-15-09, CSU conducted a probation/parole search on Derek Pollock and Curtis Vaughn at 329 E. Ridgecrest Blvd. (Rose Garden Inn). Officer located a small amount of methamphetamine and several pipes. Both Pollock and Vaughn were arrested; see RPD case#09-3519

On 10-28-09, CSU conducted a probation search on Robert Lewis and his residence, 416 N. Warner St. Officer located approximately 11 grams of methamphetamine, paraphernalia, and items consistent with sales. Also in the residence was Jennifer Billings who had several warrants for her arrest and was on the Ridgecrest Most Wanted.

PACT

PACT volunteers worked a total of 1173.5 hours during the month of October, PACT’s busiest month of the year. The Desert Empire Fair, parade, Viewfinders Motocross race, Maturango Junction and Burroughs High School Homecoming activities all kept PACT members very busy. PACT volunteers also turned 8 Code Enforcement complaint forms in to Code Enforcement Officer Smith. PACT Graffiti removal team members also cleaned up 36 graffiti sites. PACT is pleased to welcome one new Animal Welfare Volunteer, Cherrie Watkins and one new full PACT member, Dan Harbaugh!

**SUPPLEMENT TO RETURN A
MONTHLY RETURN OF OFFENSES KNOWN TO POLICE**

INSTRUCTIONS: Total offenses recorded on this form should be the same as the number of actual offenses listed in column 4 of Return A (for each crime class). Include attempted crimes on this form and Return A.

This form deals with the nature of crime (type of act and place committed) and the value of property stolen and the amount recovered. Tally sheets for this form will be send upon request.

PROPERTY BY TYPE AND VALUE

| Type of Property (1) | | Value of Property Stolen and Recovered In Your Jurisdiction | |
|--|-----------|---|------------------|
| | | Stolen (2) | Recovered (3) |
| (A) Currency, Notes, etc. | 01 | 3,394 | |
| (B) Jewelry and Precious Metals | 02 | 12,085 | 1,500 |
| (C) Clothing and Furs | 03 | 10,864 | 70 |
| (D) Locally Stolen Motor Vehicles | 04 | 30,800 | 27,300 |
| (E) Office Equipment | 05 | 850 | |
| (F) Televisions, Radios, Stereos, etc. | 06 | 3,945 | 910 |
| (G) Firearms | 07 | | |
| (H) Household Goods | 08 | | |
| (I) Consumable Goods | 09 | 277 | 26 |
| (J) Livestock | 10 | | |
| (K) Miscellaneous | 11 | 10,142 | 21,720 |
| TOTAL | 00 | 72,357 | 51,526 |

NOTE: Total of column (2) should agree with grand total (DATA ENTRY 77) shown on page 2. In column (3) include all property recovered even though stolen in prior months. The above is an accounting for only that property stolen in your jurisdiction. This will include property recovered for you by other jurisdictions but not property you recover for them.

NUMBER OF VIOLENT CRIMES COMMITTED AGAINST SENIOR CITIZENS

IN ACCORDANCE WITH SENATE CONCURRENT RESOLUTION NO. 64, (CHAPTER 147, 1982), IT IS REQUESTED THAT LOCAL LAW ENFORCEMENT AGENCIES AND THE DEPARTMENT OF JUSTICE PROVIDE THE LEGISLATURE WITH STATISTICAL INFORMATION CONCERNING VICTIMS OF VIOLENT CRIMES WHO ARE 60 YEARS OF AGE OR OLDER

Please complete one form for each month and submit it with your Return A - Monthly Return of Offenses Known to the Police." Report the number of persons, 60 years of age or older, who were victims of any of the crimes shown below. When multiple crimes occurred during a single incident, show only the most serious for each victim according to the order of the following list.

| TYPES OF VIOLENT CRIMES | | NUMBER OF VICTIMS 60 YEARS OF AGE OR OLDER |
|-------------------------|--------------------|---|
| 1 | HOMICIDE | 0 |
| 2 | FORCED | 0 |
| 3 | ROBBERY | 0 |
| 4 | AGGRAVATED ASSAULT | 0 |

INSTRUCTIONS FOR COMPLETION:

**REPORT ONLY THOSE DOMESTIC VIOLENCE-RELATED CALLS FOR ASSISTANCE
 WHICH HAVE BEEN VERIFIED. SEE REVERSE SIDE OF THIS FORM FOR
 PENAL CODE STATUTES TO BE USED WHEN COMPLETING THIS FORM.**

1. Enter the total number of domestic violence-related calls that are received and verified by your agency in the "Total domestic violence calls received and verified" column. Of the "Total domestic violence calls received and verified," enter the number of cases involving weapons in the "Total cases in which weapons were involved" column.
2. Of the "Total cases in which weapons were involved," enter the subtotal for each weapon category. Firearm, knife or cutting instrument or other dangerous weapon shall be reported by type of weapon regardless of the outcome or injury. The use of a personal weapon, such as hands, fists, or feet, is to be reported as a weapon only if the assault resulted in severe or aggravated bodily injury
3. Complete one form for each month and submit the form with your "Return A - Monthly Return of Offenses Known to the Police."
4. If there are no calls received during the report period, write the word "NONE" across the face of this form and submit it with your "Return A."

Volunteers served fifteen subpoenas and attempted to serve six more.
 Four evidence runs were made to Bakersfield.
 PACT Code Enforcement Patrol Teams turned in seven sign violation Code Enforcement complaint forms to the CE Officer and one additional for trash at a home.
 Thirteen folks attended the monthly evening coffee along with one guest.
 No carts were rounded up in October. A total of 2064 carts have been rounded up so far since PACT started the round-ups.
 No Victim letters were sent out for Neighborhood Watch.
 Twenty six volunteers worked the Annual Viewfinders Motocross on October 3rd & 4th for a total of 288 hours worked.
 Seventeen volunteers assisted with the Parade on Oct. 24th.
 Thirteen volunteers worked Maturango Junction on October 17th.
 Three volunteers conducted Surveillance on Burroughs High School for Home coming on Wed. & Thurs. October 21st & 22nd from 10:00PM until 6:00AM.
 Twenty volunteers worked shifts at the Fair from Thursday Oct. 22nd thru Sunday October 25th.
 Three teams were on Patrol on Saturday October 31st for Halloween Night netting 31.5 volunteer hours.
 There are five pending AW applications and one new AW volunteer, Welcome Cherrie Watkins.
 There is also one new Full PACT volunteer, welcome Dan Harbaugh!

RESERVE ORGANIZATION

MONTHLY SUMMARY

OCTOBER 2009

| | Current Month | YTD Total |
|--------------|------------------|--------------|
| Reserve Hrs. | 142.0 | 1037.5 |

During the Month of **OCTOBER** Reserve Officers worked the following hours:

| | |
|------------------|--------------------------|
| Officer Kiren | 0.0 (On Personal Injury) |
| Officer Dysart | 05.0 |
| Officer Schatz | 35.0 |
| Officer Robbs | 16.5 |
| Officer Dorrell | 35.0 |
| Officer Regan | 230 |
| Officer Mitchell | 02.0 |
| Officer Kinslow | 18.0 |
| Officer Podell | 07.5 |

This month, members of the Reserve Organization augmented Patrol, assisted with Range, DEF fair, Cancer Walk, CHAMPS Halloween House, and BHS Football games.

Sergeant

Reserve Report for the Month of October 2009

The Reserve Officers achieved a total of 142 hours for the month of October. Officers Dorrell and Schatz contributed 35 hours each.

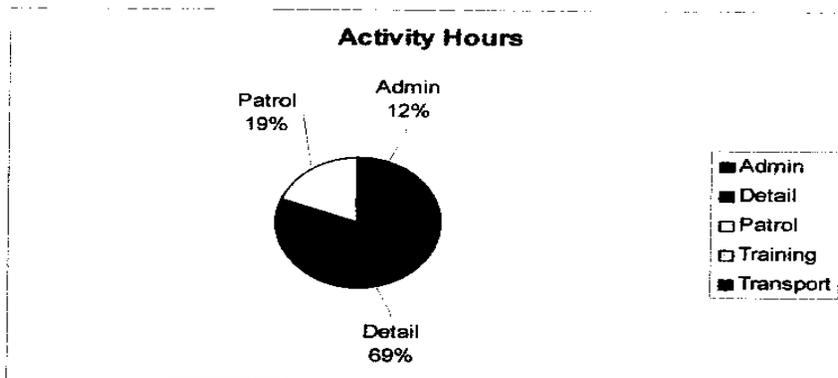

Reserve meetings accounted for 12 percent of administration time with 17 hours.

Reserve Officers logged a total of 97.5 hours of detailed time assisting with the Desert Empire Parade and Fair, the Cancer Walk, the CHAMPS Halloween House, and Burroughs High School football games. This accounted for 41 percent of the reserves total time.

Patrol time accounted for 19 percent of the total reserve hours, with Officers Dorrell, Kinslow and Podell with a combined total of 27.5 hours.

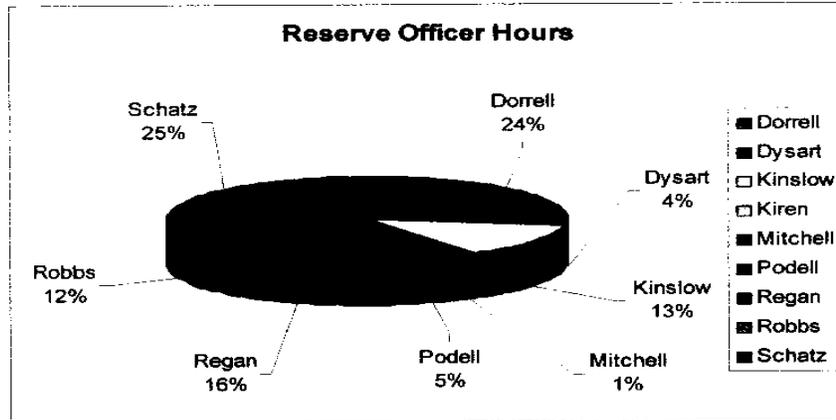

The following is a breakdown of the Reserve hours:

| | | |
|----------------|------------|-----|
| Administration | 17.0 hours | 12% |
| Details | 97.5 hours | 69% |
| Patrol | 27.5 hours | 19% |

Reserve Officer hours for the month of October:

| | | |
|----------|------------|-----|
| Dorrell | 35.0 hours | 24% |
| Dysart | 5.0 hours | 4% |
| Kinslow | 18.0 hours | 13% |
| Kiren | 0.0 hours | 0% |
| Mitchell | 2.0 hours | 1% |
| Podell | 7.5 hours | 5% |
| Regan | 23.0 hours | 16% |
| Robbs | 16.5 hours | 12% |
| Schatz | 35.0 hours | 25% |

Public Works Monthly Report

Special points of interest:

Intersection Safety

In 2008, there were 37,261 fatalities on our Nation's roadways. Of these, 7,772 (20.8% of total fatalities) were intersection or intersection related.

An intersection is a planned point of conflict in the roadway system. With different crossing and entering movements by both drivers and pedestrians, an intersection is one of the most complex traffic situations that motorists encounter. Dangers

are compounded when we add the element of speeding motorists who disregard traffic controls. Despite improved intersection design and more sophisticated applications of traffic engineering measures, the annual toll of human loss due to motor vehicle crashes has not substantially changed in more than 25 years.

Intersection safety is a national, state and local priority. Intersections represent a disproportionate

share of the safety problem. As a result, organizations such as the FHWA, NHTSA, the Institute of Transportation Engineers (ITE), the American Association of State Highway and Transportation Officials (AASHTO), the American Automobile Association (AAA), and other private and public organizations are devoting resources to help reduce the problem.

Planning for Safety

Safety is a prime consid-

Wastewater Department

The City of Ridgecrest VWVTF operated within design and compliance directives issued under Board Order No. 6-00-56. The treatment facility operated with no discharge violations or abnormal conditions. The Department inspected and passed (5) new connection to the sanitary sewage system. The department responded

to (5) requests for service (1) odor complaint, (1) requests for treatment of the sewage collection system for roach control, and (3) possible main line stoppage, that were the homeowners problem. The Department continued periodic maintenance on the levees of the treatment lagoons. The reclamation department reclaimed 3.46

million gallons of secondary effluent for use as fodder crop irrigation. The Department hydro flushed 17,796 ft. of main line sewer for compliance with the SSO and SSMP program.

eration for traffic engineers when designing, operating, managing, and rehabilitating intersections. Engineers have several methods of using collision data to assess intersection safety. Traditionally, engineers have used collision frequency to evaluate the safety of an intersection. Many jurisdictions produce a "Top 10" list of intersections with the highest colli-

sion frequency and concentrate their improvement efforts at those sites. Collision frequency, however, does not take traffic volume or collision severity into consideration. By measuring collision rates, which take into account exposure to traffic volumes, engineers can assess the risk that road users face.

By looking at both collision frequency and rates, planners can select those intersections with both high collision frequencies and high collision rates for more detailed safety diagnoses. In addition, they can look at collision severity through use of an index that gives

greater weight to collisions resulting in serious injury or fatality than to those resulting in property damage only.

Engineers analyzing intersections also use safety performance functions, equations that present the mathematical relationship between collision frequency and volume based on a group of intersections with similar characteristics (that is, signalized, same number of legs, and similar average annual daily traffic). This method can be complex, but it helps planners calculate the potential for safety improvement more accurately than other methods.

The ability to measure, evaluate, and forecast traffic operations is a basic

Transit

On October 26, 2009, the Administrative Analyst I, Starla Shaver was promoted to Administrative Analyst III and reclassified from Administrative Department to Public Works. The primary function of the Administrative Analyst

will be to ensure Transit compliance. The transit staff continues to verify information contained in TTP provided by Moore & Associates.

(Continued from page 2)

element of effectively diagnosing problems and selecting appropriate treatments for signalized intersections. An analysis of traffic operations describes how well an intersection accommodates demand for all user groups. Engineers can use operations analyses at a broader level to determine the size of intersection needed, and at a more refined level to develop signal timing plans. Engineers commonly use three measures of effectiveness to evaluate signalized intersection operations: volume-to-capacity ratio (how well an intersection can accommodate traffic volumes), delay (additional travel time experienced by motorists moving through the intersection), and queue (lines of traffic in areas such as turn lanes).

Remedies for Signalized Intersection Problems

Traffic signals are a common form of traffic control used by State and local agencies to address roadway operations. They allow the shared use of road space by separating conflicting movements in time and allocating delay. They can also be used to enhance the mobility of some movements as, for example, along a major arterial.

Traffic signals play a prominent role in achieving safer performance at intersections. Research has shown that, under the right circumstances, the installation of traffic signals will reduce the number and severity of crashes. But inappropriately designed and/or located signals can have an adverse effect on traffic safety, so care in their placement, design, and operation is essential.

Once project engineers have analyzed a signalized intersection, they can apply a variety of remedies to minimize safety or operational deficiencies, including system wide, intersection-wide, alternative, approach, and individual movement treatments.

System wide treatments apply to roadway segments located within the influence of signalized intersections and to intersections affected by traffic flow along a corridor. These treatments primarily address safety concerns associated with rear-end collisions, turbulence related to vehicles turning in the middle of the block from driveways or no signalized intersections, and coordination problems

associated with how traffic progresses from one location to another.

Studies have shown that conventional methods of increasing intersection capacity—such as adding left-turn, through, and right-turn lanes—can have diminishing returns. Larger intersections increase traveler delays because of longer clearance times for vehicles and pedestrians, greater imbalances in lane use, and potential queue blockages caused by longer cycle lengths.

Approaches are critical components of a signalized intersection. It should be obvious to someone approaching by motor vehicle, bicycle, or on foot that an intersection is ahead, and the traffic control device is a traffic signal. Adequate signing and pavement marking is required to provide the driver with sufficient information to determine the appropriate lane to choose and direction to travel. The pavement on the approaches should provide the driver with a smooth, skid-resistant surface, with adequate drainage. The approaches ideally should meet at right angles and should be at grade and free of unnecessary clutter and obstacles. Sight distance for all approaches should be adequate for drivers proceeding through the intersection, particularly those making a left turn.

Approach treatments include sight distance, signing, and pavement markings; grading and intersection angles; and lack of clutter. These treatments ensure that approaching motorists, bicyclists, and pedestrians can see that an intersection is ahead and that a traffic signal is controlling the traffic flow. Adequate signs and pavement markings, for example, help drivers choose an appropriate lane and travel direction. The pavement on the approaches gives drivers a smooth, skid-resistant surface. Sight distance for all approaches should be adequate for drivers proceeding through the intersection, particularly those making left turns.
